HDMF Remittance

   HDMF Remittance System is a secured system that compiles all the HDMF contribution and loans of the employees in every company. In this system the user can view the total amount of contribution rendered in the selected month in a year and also the number of contributor in a company. All the names of the contributor can also be viewed by the user. To access the system, username and password is required. After the inputted username and password was accepted by the system, the HDMF Remittance module will show.

   This module will provide user the privilege to search for the company's contribution. Year, month, loan type (Contribution, Calamity and Multi-Purpose) and name of the company is needed and required in sorting the number of contributors and amount of contribution in a company.

Clicking   Process   Button   Process   will show the final output (Total Amount and Total No. of Employee).
