DATA COLLECTOR USER'S MANUAL

I. Collect Data Key Layout:

Alphanumeric keypad is set to numeric mode by default. The [FN/ALPHA] as a toggle among in numeric, alpha (lower-case alphabetic), ALPHA (upper-case alphabetic) input modes.

Note: It is not necessary to hold down the FN/Alpha key.

The associated icon will appear on the lower-right corner of the screen in a sequence as shown below.

Screen Icon	FN/ALPHA KEY	Input Mode	
(none)	N/A	Numbers	
A	Press [FN/ALPHA] one time	Upper-case alphabetic	
<u>a</u>	Press [FN/ALPHA] two times	Lower-case alphabetic	
<u>F</u>	Press [FN/ALPHA] three times	Function mode	

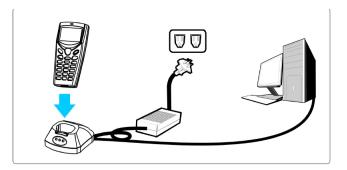

Process:

1. After clicking the **Power On** button the device selection menu will display.

- 2. Click Enter/OK button.
- 3. Input the Store Name then click Enter/OK button.
- 4. Next input the Sell/Stock area
- 5. After inputting the Sell/Stock area click Enter/OK button.
- 6. Then input the name of the Checker press Enter/OK button again.
- 7. Press the **Scan** button to get the barcode of the item.
- 8. Next input the number of quantity.
- 9. Then click Enter/OK button.
- 10. To scan another items repeat the steps from STEP 6 STEP 8. Note: If you want to change the Store Name, Sell/Stock area and Checker click the Back/Cancel button once for you to return in STEP 3.

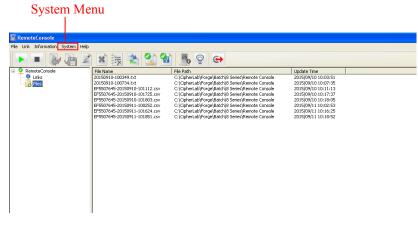

II. Upload Data

Note: Before you start the steps in uploading data, be sure that your device was properly connected to your Computer same as the figure shown below.

Process:

1. Open **Remote Console** application installed in your computer.

Note: If **Remote Console window** did not display after clicking the application. See the **Toolbars** then look for the icon of **Remote Console**

Point the mouse in the icon. Next right click.

Then select/choose Maximise.

- 2. Click **System** menu placed on the upper part of the **Remote Console** window.
- 3. Next Click the Link Properties.
- 4. In the **Link Property Window**, click the dropdown button inline with label/word **Interface**.
- 5. Next choose/select Cradle IR.
- 6. Then beside **Port** input 9, to assign which data collector the user wants to access/connect.

- 7. After assign the data collector, go back on the device (data collector) choose the **Upload** menu, by just simply clicking the drop down button then press **Enter/OK** button (after turning on the device). Wait until the device is totally connected.
- 8. Next go back to the System (Remote Console) click the Play/Start button
 placed on the left side upper part of the window. Wait until the Data Collector device will display a message that states "Sending Transf.: done".
- 9. Then data collector will ask which data user wants to delete, just choose one and then press **Enter/OK** button.
- 10. A confirmation message will display then just choose if Yes/No and click **Enter/OK** button.
- 11. Then click the **Stop** button **I** placed beside the **Play/Start** button in **Remote Console** window.
- 12. To view the uploaded file, go back to the Remote Console window.
- 13. On the left side of the window click **Files** and the uploaded files will display.
